OPEN TO REMOTE WORK

Hussnain Iqbal

Shopify Developer · Liquid, JavaScript and React

Shopify developer who builds and customises online stores: custom themes and sections in Liquid, PSD and Figma designs turned into editable Shopify themes, and third-party API integrations. I also build dashboards and web apps in React and Next.js, and work remotely with clients in the UK and the USA.

SELECTED PROJECTS

LiftSets — SHOPIFY
liftsets.co.uk
Gym equipment store: 500+ products, an interactive product finder and advanced filtering.

Multi-store dashboard — NEXT.JS
Shopify API
One admin for several Shopify stores: orders, inventory and analytics in one place.

AI exam prep platform — SAAS
learnacca.com
Learning platform for ACCA students with an AI tutor, mock exams and progress tracking.

Kause Marketing — WEBSITE
kausemarketingagency.com
Agency website with SEO-focused service and location pages and lead forms.

Shopify Brands SEO — WORDPRESS
shopifybrandsseo.com
WordPress and Elementor website for a Shopify SEO agency, with service pages.

Macking — SHOPIFY
macking.co.uk
Buy-back store where customers sell items to the business. A custom request flow replaces checkout and saves each order in Shopify and Google Sheets.

More Shopify stores I built: heavysets.co.uk · gymplates.co.uk · tecnologii.co.uk · Fitness Gear Online · Aaqas · full list at hussnain926.github.io

SHOPIFY

- Liquid and Online Store 2.0
- Custom themes, sections and templates
